Where Stories Shine. Where Service Inspires.

ABOUT SINAGTALA

Sinagtala is a Filipino word formed from the root words sinag and tala, which mean “ray of light” and “star,” respectively. When brought together, these words create a beautiful image of light among the stars, making it a fitting name for the official e-bulletin of the Rotary E-Club of All Star CAMANAVA.

But Sinagtala means more than a name.

It is our connection point, a place where the stories of our club, our members, our partners, and the communities we serve come together. Like stars scattered across the night sky, each person and every act of service may seem small on its own. Together, they create something bigger and something brighter. Through Sinagtala, we share not only what we do, but also why we do it.

Here, you will find the stories behind our projects, the people who make them possible, the voices of those whose lives have been touched by service, and the moments that bring us together as an All Star family.

Service is not measured only by the projects we complete or the numbers we reach. Its true measure can be seen in the lives we touch and the light we leave behind. We believe that every community has the potential to shine. Through service, fellowship, and compassion, we can help bring that light forward.

This is Sinagtala. A collection of stories, experiences, and moments that remind us why we serve and why we create lasting impact together.

Where Stories Shine. Where Service Inspires.

MESSAGE *from the* CLUB PRESIDENT

**UNITED IN SERVICE,
STRONGER IN IMPACT**

“

‘Service Above Self’ remains the guiding principle of our club’s initiatives and the heart of everything we strive to accomplish.

”

It reminds us that true leadership is not measured by titles or recognition, but by our willingness to put the needs of others before our own and to transform compassion into meaningful action. As Rotarians, we are called not only to serve, but to serve with purpose, integrity, and a genuine commitment to creating lasting change.

This Rotary year, our club is placing greater emphasis on collaboration with fellow metropolitan Rotary clubs. We believe that when clubs come together, we can broaden our reach, share valuable resources, exchange ideas, and maximize the impact of every project we undertake. The challenges faced by our communities are often too complex for any single organization to address alone. By working together, we can combine our strengths, talents, networks, and experiences to develop programs that are more responsive, sustainable, and impactful.

Rotary has taught me that our clubs are not isolated entities working independently. We are part of something much greater—a global fellowship of individuals united by friendship, compassion, and a shared commitment to service. Our differences in background, profession, and experience become our strengths when we come together for a common purpose. Through fellowship and partnership, we discover new possibilities and inspire one another to serve beyond the boundaries of our own clubs.

DOMINIC BENEDICT SANTOS-VIOLA FAUSTINO

High Impact President
Rotary Year 2026-2027

Under the leadership of our District Governor Celso Montalla, we look forward to strengthening these relationships and building partnerships that extend beyond a single project or Rotary year. We envision joint ventures that encourage innovation, foster fellowship, and create opportunities for Rotarians to work side by side in addressing the needs of our communities. More importantly, we hope these partnerships will become lasting bridges that continue to connect clubs and communities long after a project has been completed.

As we move forward, our goal is not simply to accomplish more projects, but to make every project count. We want our service to leave a positive and lasting impression—to create opportunities, uplift lives, strengthen communities, and inspire others to become part of the movement.

Together, let us continue to live the spirit of “Service Above Self.” Through unity, friendship, and purposeful collaboration, may we create lasting impact and demonstrate that when Rotarians serve together, the possibilities for positive change are limitless.

Presidents' Breakfast

Attending our first Presidents' Breakfast was truly an eye-opening, meaningful, and inspiring experience. It was a wonderful opportunity to gather with fellow Rotary leaders, exchange ideas, and gain valuable insights that will help guide us throughout this Rotary year.

One of the key takeaways for me was the importance of sound financial management in ensuring that our clubs remain sustainable and capable of delivering meaningful service. Responsible stewardship of our resources allows us to maximize every contribution and ensure that more of our efforts reach the communities and people who need them most.

We also discussed the value of strengthening sister and partner club collaborations. Rotary becomes even more powerful when we work together. By sharing resources, experiences, networks, and ideas, we can create joint initiatives that reach farther and make a greater difference. These partnerships remind us that although we belong to different clubs, we are united by one common purpose: Service Above Self.

Another important area of discussion was our continuing commitment to building safer, healthier, and drug-free communities. This is a responsibility that requires not only programs and advocacy, but also sustained cooperation among Rotary clubs, community leaders, families, and other stakeholders. Together, we can help create communities where people, especially the younger generation, are given opportunities to thrive and build better futures.

Beyond the meaningful discussions, I truly appreciated the fellowship. Connecting with fellow Presidents, listening to their experiences, and sharing our aspirations made the gathering even more special. These friendships and relationships are among the greatest strengths of Rotary, reminding us that service is not something we do alone.

As we look forward to exciting fellowship activities, collaborative projects, and new opportunities to serve, I am filled with renewed energy and enthusiasm. The ideas we shared are more than plans—they are opportunities to transform our communities through collective action.

Here's to a Rotary year filled with purpose, friendship, collaboration, and service. Together, let us turn our ideas into action, strengthen our partnerships, and continue to Create Lasting Impact. 

Editor's Notes

IN THE MARGINS

CONTENT IS KING, BUT STORIES ARE THE HEART

Bill Gates said content is king.

But in the world of storytelling, content becomes truly impactful when it has heart, purpose, and a story worth sharing.

Welcome to the August 2026 issue of Sinagtala: The All Star Connection, where stories shine, service inspires, and the people behind Rotary take center stage.

As Editor-in-Chief, I have always believed that e-bulletins are not just collections of photographs, reports, and announcements. It identifies who we are, what we value, and the impact we hope to create in the community. Every page is a chance to preserve a memory, celebrate an achievement, and remind our readers that behind every project are people who choose to serve.

This issue is especially meaningful to me because it marks the beginning of something new.

A New Space for Conversation

We are officially launching **Tala Talks**, a space where our readers can join the conversation. Tala Talks invites readers to pause, reflect, and share. It allows our readers to tell us what inspired them, what they learned about Rotary, and what stayed with them after reading *Sinagtala*.

A magazine should not only speak to its readers. It should also listen.

Through Tala Talks, we hope to create a space where Rotarians, friends, and even those who are simply curious about Rotary can share their thoughts and experiences. After all, every voice has a story, and every story has the power to inspire.

Stories of Service, Stories of Impact

In this issue, we shine the spotlight on our service projects through **Project Spotlight**.

From Project RENEW Life, which is our initiative of bringing hope to Malabon City Jail Female Dormitory, to Project BITUIN, our commitment to nurturing families and creating lasting impact, these stories inspire us that service is not merely about what we do. It is about why we do it.

Every hygiene kit distributed, every lesson shared, every hand extended, and every partnership formed carries a purpose beyond the event itself.

These are stories of compassion, collaboration, and the willingness to make a difference in our world. And through Sinagtala, we hope to bring those stories closer to our readers, allowing them to see not only the activities, but the heart behind them.

The Serious Side of Service, and the Funny Side of Us

Of course, Rotary is not all meetings, project planning, and serious discussions.

Sometimes, it is also about getting lost, navigating narrow streets, making questionable driving decisions, and finding ourselves in situations that become funny stories later.

In **My Rotary Story**, we take a lighter look at the experiences of Rotarians. This issue features IPP Cristina Chua's own Rotary driving adventures, from narrow streets to divine intervention.

Because behind every service project are people with personalities, quirks, unexpected adventures, and a good sense of humor. That's us! 😊

And perhaps that is what makes Rotary even more special. We serve with purpose, but we also laugh, learn, and create memories along the way.

I hope this page encourages us that while our work is important, we do not always have to take ourselves too seriously. Sometimes, the most memorable stories are the ones we never planned to tell.

A Birthday Month Reflection

August is also special to me for a more personal reason. It is my birth month!

As I celebrate another year of life, I find myself reflecting on the people, experiences, and opportunities that continue to shape my journey. Being part of Rotary has given me more than a platform to serve. It has given me friendships, challenges, lessons, and moments that I will carry with me forever.

And now, through Sinagtala, I am grateful for the opportunity to help tell the story of our club.

This publication is a labor of love, and every issue reminds me why storytelling matters. It allows us to look back with gratitude, celebrate the present, and look forward with hope.

Until the Next Story

To our readers, thank you for being part of Sinagtala.

Thank you for reading, for supporting our projects, for celebrating our milestones, and for sharing in our journey. We hope that as you turn each page, you find something that inspires you, makes you smile, or reminds you of the beauty of serving others.

And to my fellow Rotarians, may we continue to create stories worth telling, memories worth keeping, and an impact that lasts a lifetime.

Content may be king, but the people and purpose behind every story are what make it shine.

Happy reading, and welcome to another chapter of our All Star story.

Rotary Year 2026-2027

PROJECT SPOTLIGHT

ReCASC Brings Hope to Malabon City Jail through Project RENEW Life

Sometimes, the best stories are the ones that never made it into the original plan.

On August 6, 2026, the Rotary E-Club of All Star CAMANAVA (ReCASC) conducted its Project RENEW Life, which supported 148 Persons Deprived of Liberty at the Malabon City Jail Female Dormitory.

The project, which means "Restoring Esteem; Nurturing Every Worthy Life," began unexpectedly with a casual meeting between then Good President Maria Cristina C. Chua and Jail Senior Inspector and Acting City Jail Warden Nelia Gomez-Macaraeg. Following their meeting, Officer Macaraeg, through JO2 Eddie Louie M. Traqueña, sent a letter to the club requesting a donation of tarpaulins for the facility to protect the dormitory from the harsh effects of the rainy season. ReCASC responded to their request and promised to provide the needed help.

The turnover was supposed to happen following another club project, Project BITUIN, at an adopted daycare center on August 6. Project BITUIN was supposed to be the main event on that day; however, due to the inclement weather, which compromised the safety of the project's beneficiaries, the club decided to reschedule the project and push through with Project RENEW Life instead.

The Rotary E-Club of All Star CAMANAVA members pose for photo ops along with Vice Mayor Hon. Edward C. Nolasco, Jail Senior Inspector and Acting City Jail Warden Nelia Gomez-Macaraeg, JO2 Eddie Louie M. Traqueña, and some of the beneficiaries of Malabon City Jail Female Dormitory during the club's Project RENEW Life held on August 6, 2026.

What started as a side quest became the main event. Led by High Impact President Dominic Benedict Santos-Viola Faustino, the club went to Malabon City Jail Female Dormitory, bringing hygiene kits and food to the beneficiaries, along with the promised tarpaulins. The sandwiches originally intended for the daycare children were distributed to the PDLs, while packed meals and dental kits were also provided through the generosity of sponsors. Among them were the Philippine Dental Association Malabon-Navotas Chapter, led by its Chapter President, Dr. Weeden F. Fofue, and the Philippine Malabon Cultural Institute, Inc.

The outreach was made even more meaningful by the presence of Malabon City Vice Mayor Hon. Edward C. Nolasco, who shared an encouraging message with the PDLs. He reminded them that their present circumstances do not define who they are and that hope is never lost. As they continue to work toward becoming better versions of themselves, he encouraged them to remember that they are seen, valued, and not forgotten.

Project RENEW LIFE was about more than what was handed out. At the venue, the project evolved from a simple outreach activity to a bigger endeavor. The club members felt compelled to return to the facility in the future to address more of the beneficiaries' needs, especially on matters of legal assistance.

For the Rotary E-Club of All Star CAMANAVA, the heart of Project RENEW Life lies in the commitment to promote peace by building bridges with communities that are often unseen, affirming human dignity, and creating spaces where hope and rehabilitation can take root; that even behind walls, people deserve to be remembered, cared for, and reminded that they still have hope.

Project RENEW Life did not just end with an afternoon of giving. It ended with a promise of continued service to the Malabon City Jail Female Dormitory. Because when there is a need, there is always another way to shine, serve, and create lasting impact.

HIP Dominic Benedict S.V. Faustino gives an empowering message to the Persons Deprived of Liberty during the Rotary E-Club of All Star CAMANAVA's Project RENEW Life held at Malabon City Jail Female Dormitory on August 6, 2026.

Vice Mayor Hon. Edward C. Nolasco shares his inspirational message with the Persons Deprived of Liberty during the Rotary E-Club of All Star CAMANAVA's Project RENEW Life held at Malabon City Jail Female Dormitory on August 6, 2026.

The members of ReCASC laugh their hearts out while interacting with the beneficiaries and officers of Malabon City Jail Female Dormitory during the Project RENEW Life held on August 6, 2026.

PROJECT SPOTLIGHT

ReCASC's Project BITUIN Shines Light on Health, Hygiene, and Family Well-Being

Heavy rain and flooded streets did not stop Rotary E-Club of All Star CAMANAVA's Project BITUIN from bringing health education, essential supplies, and moments of joy to families in Longos, Malabon.

After several postponements due to inclement weather, ReCASC finally conducted the first leg of Project BITUIN on August 26 at the Longos Pampano Child Development Center. The activity brought together daycare learners, parents, and guardians for a morning of health discussions, demonstrations, games, and fellowship.

Despite the difficult weather conditions, the children eagerly joined the activities prepared for them, including singing, dancing, and lessons on proper handwashing and toothbrushing. Through demonstrations and discussions, they were encouraged to develop healthy habits and practice proper personal hygiene.

The distribution of 130 dental and hygiene kits further reinforced the importance of oral health and cleanliness among young learners. The children also received art materials such as pencils, modeling clay, and crayons, giving them an opportunity to explore their creativity.

For the parents, the program provided an opportunity to learn about an important but often less discussed aspect of women's health. Resource speaker Mae Montalla-Rizardo, a professor at the College of Nursing of World Citi Colleges in Quezon City, discussed perimenopause and its possible effects on mothers' physical and emotional well-being, behavior, and relationships. Professor Mae also briefly discussed andropause, a medical term commonly associated with "male menopause."

The discussion also touched on how hormonal changes may affect communication and married life. She emphasized the importance of understanding the changes both women and men experience, particularly within the family. Parents were reminded that each partner may be facing personal struggles and that patience, understanding, and support are essential in maintaining a strong relationship.

For Melissa, one of the participants, the lessons were valuable not only for her children but also for her relationship with her husband.

"Sa kids po, iyong tinuro sa amin ay about sa proper na pagtoothbrush ng mga bata saka yung proper na paghugas ng kamay. So, malaking impact din po 'yon as a parent kasi ma-a-adapt po ng mga anak namin 'yung ganung techniques na tinuro niyo po sa amin, kaya maraming maraming salamat po," she said. [For the children, what was taught to us was proper toothbrushing and proper handwashing. That made a significant impact on us as parents because our children can adopt the techniques you taught us. So, thank you very, very much," she said.]

She also expressed her appreciation for the discussion on marriage and relationships.

"Then, itinuro rin sa amin bilang husband and wife kung paano maging strong couple at mapanatili yung good relationship ng mag-asawa. So may mga kanya-kanya pala kaming pinagdaraan. So kailangan lang namin ng pagkakaunawaan sa isa't isa. Salamat po kay Prof. Mae, yung nagturo po sa amin," she added. [Then, Prof. Mae also taught us, as husbands and wives, how to become a strong couple and maintain a good relationship. We realized that each of us has our own struggles, so we just need to understand one another. Thank you to Prof. Mae for teaching us," she added.]

Adding inspiration to the activity, Vice Mayor Edward C. Nolasco shared an encouraging message with the families and community partners. His presence highlighted the importance of collaboration among local leaders, civic organizations, and community members in creating programs that respond to the needs of families.

Professor Mae Montalla-Rizado shares her knowledge and practical insights about perimenopause and how it affects women's physical and emotional well-being.

Vice Mayor Nolasco welcomes the club and the families of Longos, Malabon, as he emphasizes the importance of community service and supporting local families.

ReCASC members interact with the children and parents of Longos, Malabon, creating joyful moments and strengthening the spirit of community service.

Project BITUIN, which stands for Building Impact Through Unified Initiatives for Nurturing Families, is Rotary E-Club of All Star CAMANAVA's flagship annual daycare adoption program. It supports children and families through initiatives focused on maternal and child health, oral hygiene, disease prevention, education, and access to essential resources. This project also supports Rotary International's areas of focus on Maternal and Child Health, Disease Prevention and Treatment, and Water, Sanitation, and Hygiene (WASH).

The activity was made possible through the support of the Philippine Dental Association, led by Hiraya President Dr. Mariusse Chars Reyes Esquillo; its local chapter, the Malabon-Navotas Chapter, led by Dr. Weeden F. Fofue; and the Office of Vice Mayor Nolasco.

Project BITUIN also highlighted the participation of dental clinics that helped fund the health kits, including BesTeeth Smile Projects Dental Clinic from Mandaluyong City, KDC Dental Services from Nueva Vizcaya, and SMILExpert Dental Clinic from Cebu City. Their participation showed that the project opened opportunities for partners from different places to contribute to the well-being of a community. It also reflected that the spirit of Rotary knows no geographical bounds.

Meanwhile, the art materials were donated by SQI Group Int'l. Corp., while the snacks were provided by Kangkong King.

The Philippine Malabon Cultural Institute, Inc. (PMCI) also provided logistical support to the project ensuring of its successful completion.

With the support of its partners, ReCASC hopes to continue bringing similar activities to more families through Project BITUIN.

The club, together with its partners, pooled funds to purchase personal hygiene kits for 130 daycare learners during Project BITUIN's kickoff on August 26 at Longos Pampano Child Development Center in Longos, Malabon City.

HIP Dominic and PE Michael happily hand out hygiene kits to the children, sharing smiles and helping make Project BITUIN a memorable experience for the young learners.

ReCASC, together with PMCI's Interact Club and the Rotaract E-Club of All Star CAMANAVA energetically pose for photo ops during Project BITUIN's kickoff.

ReCASC MARKS 4TH HANDOVER & 5TH INDUCTION CEREMONIES WITH NEW LEADERSHIP

The baton of leadership changed hands at Meyer's Events Place in Quezon City on August 27, 2026, as the Rotary E-Club of All Star CAMANAVA (ReCASC) gathered for its 4th Handover and 5th Induction Ceremonies.

The occasion brought together Rotarians, community leaders, families, and friends to celebrate the club's achievements, welcome its incoming leadership, and look ahead to another year of service.

With District 3800 Governor Celso C. Montalla, Immediate Past District Governor Gina T. Sanchez, Past District Governor Arturo "Bobby" C. Tanyag, Malabon Mayor Hon. Jeannie N. Sandoval, fellow Rotarians, and members of the ReCASC family in attendance, the ceremony reflected the connections that continue to strengthen the club's place in the Rotary community.

Dressed in barong and Filipiniana attire, members and guests witnessed the formal turnover of the baton from Good President Maria Cristina C. Chua to High Impact President Dominic Benedict Santos-Viola Faustino, who assumes the presidency for Rotary Year 2026-2027. The ceremony also marked the induction of the incoming officers and directors who will help guide the club's programs, projects, and organizational direction in the year ahead.

For ReCASC, the gathering carried a distinct character. True to its identity as an e-club, the celebration extended beyond the walls of the venue. Other club members joined through Zoom from different locations, allowing the club to bring people together despite geographical boundaries. The hybrid format reflected a culture of engagement that embraces both digital connection and face-to-face fellowship.

A Leadership Transition with Purpose

As Good President Chua concluded her term, the club recognized the work and commitment that shaped the previous Rotary year. Her leadership laid the foundation the incoming administration will build on.

Taking the baton, High Impact President Dominic Benedict Santos-Viola Faustino begins his term with the responsibility of guiding ReCASC through another year of service, fellowship, and organizational growth. His administration steps into a club with an established identity, active partnerships, and a continuing commitment to communities that need support.

The transition therefore carries an important question: **How can ReCASC build on what it has already accomplished and create initiatives that continue to benefit communities in the years ahead?**

Governor Celso addressed this challenge in his message to the club, recognizing ReCASC's ability to combine its online presence with meaningful work on the ground.

"Akala ko online lang kayo nagkikita. Nagtatrabaho rin pala kayo sa lupa," he remarked, acknowledging the club's efforts to translate its digital connections into community action.

He described the club's tree-planting efforts, Púnong Punô ng Pag-asa project, as an example of service whose benefits can reach generations beyond those who undertake it. "You are planting hope," Governor Celso said. "Every tree planted today is a gift to a generation we may never meet," he added.

His message underscored the importance of thinking beyond immediate accomplishments and considering the long-term value of every project, partnership, and volunteer effort.

The Challenge Ahead

Governor Celso urged HIP Dominic and the entire club to think bigger, strengthen projects that are already working, and build partnerships that can create lasting results.

He challenged ReCASC to look beyond the traditional relationship between Rotarians and beneficiaries by developing communities that can eventually stand on their own.

"Let us move from simply having beneficiaries to creating partners who can eventually stand on their own," he said.

The challenge places sustainability and empowerment at the center of the club's service direction. It calls for projects that address immediate needs while also helping individuals and communities develop the capacity to move forward.

For the incoming administration, this means examining how to strengthen existing initiatives, engage more volunteers and young people, and build collaborations that open new service opportunities.

Governor Celso also reminded the club that its greatest strength as an e-club lies in its ability to connect people regardless of location.

"Never underestimate yourselves because you're an E-club. You can meet anywhere. You can connect anywhere. You can mobilize people everywhere," he told the members.

The message affirmed that the value of ReCASC's work is not defined by where its members gather, but by the communities their service reaches.

Carrying the Work Forward

As the ceremony came to a close, ReCASC stood at the beginning of another Rotary year. The outgoing administration passed on its responsibilities, while the incoming officers and directors accepted the task of guiding the club into its next phase.

Governor Celso called on HIP Dominic to build on the strong foundation IPP Tina laid and take the club further.

"Your work is not merely to continue what came before. Your task is to take it further," he noted.

ReCASC members, Rotarians, and guests share moments of fellowship and celebration during the club's 4th Handover and 5th Induction Ceremonies, welcoming a new leadership team for Rotary Year 2026–2027.

He also reminded IPP Tina that Rotary leadership is not measured by the term of a single president, but by the culture of service that continues from one year to the next.

That continuity remains central to ReCASC's identity. Its members, whether participating from the venue or joining virtually, share a common responsibility to sustain the club's work and support its future direction.

The new Rotary year opens with opportunities to deepen partnerships, expand volunteer engagement, and strengthen initiatives that bring meaningful benefits to communities. It is a year that calls for action guided by purpose, collaboration, and a clear understanding of the impact service can create.

For ReCASC, the handover is a moment to honor the work already done and prepare for the work still ahead. Under President Dominic's leadership, the club moves forward with the encouragement of its district leaders, the support of its members, and the continuing commitment to make its service count.

As Governor Celso aptly put it, "Let this be a Rotary year where our projects do not simply happen. They endure. Where our beneficiaries do not simply receive. They become empowered."

With that vision, the Rotary E-Club of All Star CAMANAVA begins its new chapter, ready to turn connection into collaboration, collaboration into service, and service into lasting impact.

He also reminded IPP Tina that Rotary leadership is measured not by a single president's term, but by a culture of service that carries from one year to the next.

This continuity remains central to ReCASC's identity. Its members, whether participating in person or joining virtually, share a common responsibility to sustain the club's work and support its future direction.

The new Rotary year opens with opportunities to deepen partnerships, expand volunteer engagement, and strengthen initiatives that bring meaningful benefits to communities. It is a year that calls for action guided by purpose, collaboration, and a clear understanding of the impact service can create.

For ReCASC, the handover is a moment to honor the work already done and prepare for the work still ahead. Under President Dominic's leadership, the club moves forward with the encouragement of its district leaders, the support of its members, and the continuing commitment to make its service count.

As Governor Celso aptly put it, "Let this be a Rotary year where our projects do not simply happen. They endure. Where our beneficiaries do not simply receive. They become empowered."

With that vision, the Rotary E-Club of All Star CAMANAVA begins its new chapter, ready to turn connection into collaboration, collaboration into service, and service into lasting impact. ReCASC is at your service!

District 3800 High Impact Presidents Convene for First Breakfast Meeting

The High Impact Presidents of Rotary District 3800 attended the first Breakfast Meeting of Rotary Year 2026–2027 on August 15, 2026, at Johnson Park North Greenhills.

Hosted by Cluster 1 (CAMANAVA), the meeting focused on club planning, district awards, high-impact projects, and public image initiatives.

High Impact President Dominic Benedict S.V. Faustino represented the Rotary E-Club of All Star CAMANAVA (ReCASC) at the 1st Breakfast Meeting.

District leaders presented the criteria and point system for the District Awards, covering the recognition categories of Outstanding, Most Outstanding, and Most Outstanding with Distinction.

The meeting also outlined ten key considerations for determining a high-impact project, which are: community need, significant impact, number and depth of beneficiaries, sustainability, measurable results, long-term impact, partnerships and collaboration, member engagement, scalability and replicability, and continuity and follow-up.

Committee reports covered The Rotary Foundation updates, including End Polio Now, the Annual Fund, and grants, as well as Membership, Service Projects, Public Image, Youth Service, Rotary Community Corps (RCC), District Awards, Philippine Rotary Magazine (PRM), Governor's Monthly Letter (GML), E-Bulletin, Ways and Means, and Rotaract.

HIP Dominic together with other club presidents from Zone 1, Senior Assistant Governor Maria Theresa L. Francisco and District 3800 Governor Celso C. Montalla smile for a group photo during the first Breakfast Meeting of Rotary Year 2026–2027, held on August 15, 2026, at Johnson Park North Greenhills.

The Public Image Committee launched “Let’s Talk, Rota-Talk!!” to help clubs enhance public image, expand their reach, work with media outlets, and promote Rotary throughout the year. Clubs may invite the committee to conduct discussions on these areas.

The program also included announcements on the Anti-Drug Awareness Seminar, Oktoberfest, Ten Pin Bowling, Annual Giving Dinner, Pataya Rotary Institute Promotion, and Club Learning Facilitator Training.

The breakfast meeting equipped club leaders with practical guidance and opportunities to strengthen their plans for RY 2026–2027, supporting the district’s commitment to Creating Lasting Impact.

HIP Dominic holds ReCASC's End Polio Now coin bank which serves as Rotary's grassroots fundraising project to eliminate polio in the world.

THE ALL STAR BEAT

League of Good Presidents Holds First General Assembly in Malabon

The League of Good Presidents held its 1st General Assembly on August 16, 2026, at the Malabon Civic Center, bringing together Good Presidents from the different Rotary clubs under the league for fellowship, coordination, and the presentation of upcoming initiatives.

Hosted by the Good Presidents of Zone 1, covering Malabon and Navotas, the gathering opened with registration at 4:00 PM. The registration team was led by GP Aileen De Guzman, GP Cristina Chua, GP Louella Gahol, and other Good Presidents from clubs in Caloocan and Valenzuela. The attendees were also welcomed with dinner and beverages before the formal program.

GP Cherry Pilos of the Rotary Club of Navotas served as emcee. The program began with the invocation led by GP Aileen De Guzman, followed by the national anthem and the introduction of guests by GP Samson Go of the Rotary Club of Malabon. GP Madonna Grace Sibayan of the Rotary Club of Malabon Central delivered the welcome remarks.

The assembly also featured the introduction of the League of Good Presidents officers by GP Cristina Chua of the Rotary E-Club of All Star CAMANAVA. The league's Prime Minister 1, GP Victoria Bateria Solis of the Rotary Club of Upper Eastside Antipolo, and Prime Minister 2, GP Madonna Grace Sibayan, formally led the proceedings.

GP Angeli Pinky Ancheta of the Rotary Club of Mandaluyong West introduced the League of Good Presidents pin and explained its symbolism. A paired zone pinning ceremony followed, highlighting the connection and cooperation among the participating clubs.

The assembly also presented Project GINA, an initiative introduced by Prime Minister 1. IPDG Gina T. Sanchez delivered an inspirational message and presented the RI Club Excellence Award to all 106 Rotary clubs.

Other activities included the distribution of the league's printed planner, voting for the official T-shirt design, recognition of July and August birthday celebrants, and the presentation of audio-visual presentations featuring "Heart of a Good Leader" and the United for Good theme song.

GP Joey Choi of the Rotary Club of Malabon delivered the closing remarks. The assembly was formally adjourned by Prime Minister 1 GP Victoria B. Solis and Prime Minister 2 GP Madonna Grace Sibayan, followed by a raffle featuring cash prizes and group photo sessions with Gov. Gina Sanchez. #MCC

STILL UNITED FOR GOOD! The League of Good Presidents convene for their first general assembly on August 16, 2026 at the Malabon Civic Center in an afternoon of nostalgia, laughter, and victorious energy.

CLUB LIFE

ReCASC Hosts SAG and AG for Club Planning Review

The members of the Rotary E-Club of All Star CAMANAVA (ReCASC) welcomed Senior Assistant Governor Maria Theresa L. Francisco and Assistant Governor Arturo "Art" Sabino during their club visit on August 15, 2026, at the Rotary Club of Malabon East Clubhouse in Potrero, Malabon.

The visit provided an opportunity for the club to present its plans and priorities for Rotary Year 2026–2027 following its strategic planning session held on July 11, 2026. ReCASC shared its proposed activities, organizational priorities, and initiatives aimed at supporting the club's vision of creating lasting impact through meaningful service.

Among the highlights of the presentation was the club's High-Impact Project, BUKLOD, which stands for Building Understanding and Knowledge through Literacy, Opportunity, and Diversity. The project focuses on promoting Diversity, Equity, and Inclusion, while supporting Peacebuilding and Conflict Prevention, and Basic Education and Literacy. Through BUKLOD, ReCASC seeks to create opportunities for learning, understanding, and stronger community relationships.

The club also discussed its membership plans, including efforts to strengthen member engagement and encourage membership growth. Its public image campaign was briefly presented as another key priority, with initiatives designed to communicate the club's service activities, highlight its impact, and strengthen its visibility among members, partners, and the community.

Plans for The Rotary Foundation were likewise discussed, emphasizing the club's commitment to supporting Rotary's humanitarian work and contributing to initiatives that extend beyond the local community.

The club visit served as part of ReCASC's preparations for the upcoming Governor's Visit scheduled on August 27, 2026. Through the meeting which was also attended by members online, the club was able to review its plans, receive guidance from the visiting district representatives, and align its preparations for the Governor's assessment and engagement with the club.

DISTRICT 3800 Leaders Visit ReCASC; Club Presents “BUKLOD”

The Rotary E-Club of All Star CAMANAVA hosted District 3800 Governor Celso C. Montalla and members of the District 3800 Executive Committee during the Governor's Visit on August 27, 2026 at Meyer's Events Place, Quezon City.

Joining Governor Celso were District Secretary Rey Pineda, Past District Governor Arturo “Bobb” Tanyag, The Rotary Foundation Chair, Senior Assistant Governor Maria Theresa L. Francisco and Assistant Governor Arturo “Art” Sabino.

A key highlight of the visit was the club's presentation of BUKLOD, its proposed high-impact service project, which stands for Building Understanding & Knowledge through Literacy, Opportunity & Diversity.

Buklod seeks to bring together Basic Education & Literacy, Peacebuilding & Conflict Prevention, and Diversity, Equity & Inclusion (DEI) through interactive learning sessions and community activities designed for children from different backgrounds.

Beyond strengthening literacy, the project aims to nurture empathy, interfaith understanding, respect for diversity, conflict resolution, and peaceful relationships among young learners. Through meaningful and inclusive learning experiences, Buklod hopes to help children understand that differences can become bridges for connection rather than barriers that divide.

With the guidance of Governor Celso and the district officers, the club received valuable insights and support on how to further develop, prepare, and position Buklod for greater impact in the community.

The club also presented its plans and priorities for the Rotary year, particularly in The Rotary Foundation, Membership, and Public Image, reinforcing its commitment to strengthening the club while expanding its capacity for service.

A Year of Stories, People, and Service. *A Lifetime of Impact.*

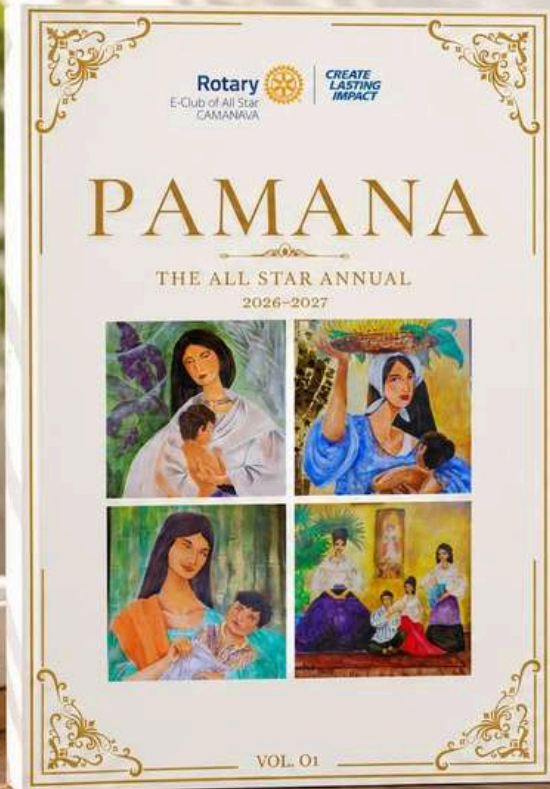

PAMANA is the annual publication of the Rotary E-Club of All Star CAMANAVA, capturing our projects, partnerships, and people — the stories that reflect our shared commitment to service and the communities we uplift.

More than a record, **PAMANA** is a celebration of the impact we create together.

OF PAMANA

Stories today. A stronger tomorrow.

ReCASC Unveils PAMANA, Celebrating RY 2025–2026 and the Legacy of Service

The Rotary E-Club of All Star CAMANAVA (ReCASC) unveiled PAMANA: The All Star Annual, Volume 01, during its 4th Handover and 5th Induction Ceremonies held on August 27, 2026, at Meyer's Events Place, Quezon City.

Created as a souvenir program for the occasion, PAMANA celebrates the accomplishments, experiences, and relationships that shaped Rotary Year 2025–2026 while marking the beginning of a new chapter under the leadership of High Impact President Dominic Benedict Santos-Viola Faustino for RY 2026–2027.

The publication takes its name from the Filipino word *pamana*, which means inheritance or legacy. True to its title, PAMANA preserves the club's journey through stories, photographs, artwork, and reflections that capture the spirit of service and fellowship shared by its members.

The annual publication brings together the club's history, service initiatives, leadership messages, fellowship activities, and significant milestones. Its pages reflect the experiences of the outgoing administration under Good President Maria Cristina C. Chua, highlighting the collective efforts that contributed to the club's growth and continued commitment to Rotary's ideals.

A distinctive feature of PAMANA is its integration of original artworks painted by HIP Dominic that represent themes of care, perseverance, hope, and unity. These artistic elements complement the publication's storytelling and reinforce the idea of legacy as something nurtured, shared, and passed forward.

The annual also documents the club's service projects, partnerships, and participation in Rotary activities, alongside photographs of gatherings and celebrations that reflect the friendships and connections built throughout the year.

More than a record of accomplishments, PAMANA serves as a keepsake of the people and moments that made RY 2025–2026 meaningful. It brings together the outgoing year's memories and the ceremonial transition into RY 2026–2027, giving members and guests a lasting reminder of the club's shared journey.

Through PAMANA, ReCASC honors the legacy of the past administration while looking forward to the opportunities and aspirations of the new Rotary year. The publication stands as a testament to the club's continuing story, shaped by service, fellowship, and a commitment to creating lasting impact.

Your voice
matters.

WHERE STORIES SHINE. WHERE SERVICE INSPIRES.

TALA TALKS

As someone who is not a Rotarian, what I learned about your group after reading the magazine is that Rotary is not simply about projects or activities. There is a deeper story behind the service—the people, the purpose, and the desire to create an impact that continues beyond the actual project.

I especially loved the meaning behind the word Sinagtala from sinag and tala, creating that beautiful image of light among the stars. Somehow, it resonated with me personally because I also believe that sometimes we become a light for others because of the darkness we have experienced ourselves.

This year, I went through one of the most difficult chapters of my life after our house was affected by a fire. It changed a lot of things for me and brought me through a season of grief, rebuilding, and learning how to start again. But along the way, I also realized that maybe our experiences are not only meant for us to survive. Sometimes, what we go through can eventually become something we can use to inspire and help someone else who is also trying to find their way back to the light.

I'm Glads...a housewife, WFH professional, intuitive tarot reader, energy healer, and teacher. Through the work I do, and through sharing some of my own experiences, I also try to remind people that even in difficult seasons, there can still be something worth holding on to.

So when I read Sinagtala, I didn't just see an article about Rotary. I saw a reminder of something I deeply believe in: we don't always have to be the brightest star in the sky. Sometimes, being a small light in someone else's dark season is already enough.

And maybe that's what stayed with me most after reading your magazine. Service isn't only about what we give. It's also about the light we leave behind.

Maybe, in our own little ways, we can all become a Tala.

*Gladysma Jane G. Chico,
Laguna*

Heartfelt congratulations to the Rotary E-Club of All Star CAMANAVA on the remarkable achievements and meaningful service initiatives highlighted in your Sinagtala's July issue.

With so much pride and with the best impression while reading each article/s; This are more than a record of Rotary activities. It is a collection of stories showing how small acts of service can create meaningful and lasting impact to those lives who have been touched.

Your dedication to serving the community is truly inspiring. From charitable projects and educational initiatives to health, environmental, livelihood, and cultural programs, each endeavor reflects genuine compassion and a strong commitment to making a lasting difference.

Your recognition as a Most Outstanding Club, together with the various awards received, is a well-deserved testament to the hard work, unity, and passion of your members. More than the awards, however, it is the lives touched and communities strengthened through your service that make your journey truly meaningful.

May you continue to uphold the Rotary spirit of "Service Above Self," inspire others to serve, and create greater impact through purposeful partnerships and sustainable projects.

Congratulations to all the dedicated Rotarians of All Star CAMANAVA!! You may be small in number, but truly great in heart and impact. May your star continue to shine brightly in service!

*Madelyn Acosta Gioco, LB
Israel*

ROTARY CORNER

IDEAS • VALUES • ACTION

ROTARY PLEDGE

I do solemnly promise to help advance the object of Rotary, comply with the constitution and by-laws of Rotary International and the Rotary Club of _____ ever putting into practice Rotary's motto:

*"Service
Above Self."*

FOUR-WAY TEST

Of the things we think, say or do:

1

Is it the
TRUTH?

2

Is it **FAIR**
to all concerned?

3

Will it build
GOODWILL and
BETTER FRIENDSHIPS?

4

Will it be **BENEFICIAL**
to all concerned?

OBJECT OF ROTARY

The Object of Rotary is to encourage and foster the ideal of service as a basis of worthy enterprise and, in particular, to encourage and foster:

1

First: The development of acquaintance as an opportunity for service;

2

Second: High ethical standards in business and professions, the recognition of the worthiness of all useful occupations, and the dignifying of each Rotarian's occupation as an opportunity to serve society;

3

Third: The application of the ideal of service in each Rotarian's personal, business, and community life;

4

Fourth: The advancement of international understanding, goodwill, and peace through a world fellowship of business and professional persons united in the ideal of service.

My Rotary Story

Real People.
Real Experiences.
A Stronger Club.

In Rotary, it's not just the projects and meetings that make the journey meaningful. There are funny stories that left a mark in us, unexpected moments that became lasting memories, and experiences that taught us valuable lessons.

We're inviting our Past Presidents to share their most dramatic, funniest, or most unforgettable slice of life in Rotary.
Because every story adds to the heart of our club.

My Rotary Driving Adventures: From Narrow Streets to Divine Intervention

In Rotary, my driving skills have been tested in ways I never imagined. I joined for service, fellowship, and making a difference. Little did I know I would also be training for a career in extreme driving. 😄

Episode 1: The One-Way Street That Wasn't

During our survey visit to Barangay Tangos, Navotas, for Pira-Pirasong Pangarap, CP Jaja and I had to navigate the narrow, rainy streets of Barangay Wawa.

Then came an incoming truck.

There was no street sign saying it was a one-way street, but apparently, the truck had already claimed the road.

So there I was, driving backward through the narrow street, praying that my driving skills and the car's rear camera would save us.

People
Create the
Best Stories.

Real
People.
Real
Experiences.
A Stranger
Club.

Episode 2: Fortuner vs. Mud

During our tree-planting project, Púnong Punô ng Pag-asa, CP Jaja and I were driving through a very narrow path in a Toyota Fortuner.

I was about to park and reverse when I heard someone shout:

"Tina, huwag ka na umatras, nabalawah ka na!"

It was already too late. My rear wheels were no longer on the cemented road. They were stuck in the mud.

We spent a very long time pushing the car, but the mud had other plans.

Thankfully, a guy approached, and together with the residents, they finally managed to push the car forward. PP Eden pushed harder on the pedal, while I sat there shaking, silently praying for divine intervention.

Finally, the wheels were back on the cemented road.

Episode 3: The CPA Who Almost Audited a Car

Working remotely while attending district seminars at Club Filipino sounds manageable. Until your work schedule and Rotary schedule decide to have a conflict...

There were times I had to drive while holding my laptop on my lap while checking messages. One time, while driving along EDSA, my reaction was delayed, and I almost bumped into the car in front of us.

The driver came down to check his rear end. I apologized and quickly hid my laptop. Thankfully, it was only a minor scratch, and he let us go.

When I got home, I noticed that my front license plate was bent. Apparently, the car also wanted to submit a report.

Moral of the story: Rotary has taught me many things: leadership, service, fellowship, and the importance of knowing when NOT to reverse.

At this point, I am not sure if I am a Rotarian with driving skills or a driver with a Rotary membership.

But one thing is certain: Every Rotary project comes with a story, and apparently, mine always comes with a parking challenge. 😂🚗

CLUB No. 225124 (Chartered April 5, 2023)

History of the Rotary E-Club of All Star CAMANAVA

The Rotary E-Club of All Star CAMANAVA (ReCASC), sponsored by the Rotary Club of Malabon East, began with discussions on October 27, 2022 about establishing a new Rotary club dedicated to serving the community through Rotary International's motto, "Service Above Self."

The club held its first virtual meeting on November 4, 2022, beginning the orientation and preparation of prospective members. Five members from the Rotary E-Club of Navotas were approved for transfer to the new club. On November 11, 2022, Charter President Jacil Maris "Jaja" Luma-as participated in RYLA as a facilitator, marking one of the club's early engagements in Rotary activities.

The club's organizational requirements were completed in November 2022, and on December 13, 2022, PP Jed Concepcion of the Rotary Club of Malabon East was confirmed as its New Club Adviser by then District Governor Arturo "Bobby" Tanyag.

On April 5, 2023, the Rotary E-Club of All Star CAMANAVA was officially chartered with 20 charter members, led by Charter President Jacil Maris Luma-as.

Service and Community Engagement

Since its chartering, ReCASC has actively implemented and supported projects addressing community needs across several Rotary areas of focus. These include livelihood, environmental sustainability, education and literacy, disease prevention and treatment, maternal and child health, and disaster preparedness.

Among its continuing initiatives is the doormat-weaving livelihood program in Wawa, Navotas, which provides women in the community with skills and opportunities to generate additional family income.

The club has also maintained a three-year partnership with the Sagip Sierra Madre Environmental Society, Inc. (SSMEI) for environmental conservation and watershed rehabilitation in Norzagaray, Bulacan. Activities have included tree and bamboo planting, support for Bantay Gubat volunteers, community education, and the distribution of food and school supplies.

Other initiatives have provided free eye screenings and reading glasses, livelihood training, educational assistance, and community-based support programs.

The club has also established partnerships with corporate organizations, including Maziv Build & Design, to strengthen its community service efforts.

District Participation and Fellowship

Beyond its community projects, ReCASC actively participates in Rotary District 3800 activities, including conventions, service expos, leadership programs, talent events, sports activities, and fellowship gatherings. These engagements allow members to contribute to district-wide initiatives while celebrating the talents, sportsmanship, and camaraderie of Rotarians.

Milestones and Recognition

ReCASC's active service and leadership have earned significant recognition within the district. The club has been named a Most Outstanding Club and has received awards for Public Image, membership retention, Rotary Foundation engagement, goal achievement, and progress toward charter strength.

Its leaders have likewise received individual recognition. Hope Creating President Jemuel A. Pilapil was honored as an Outstanding President, while Good President Maria Cristina C. Chua was recognized as Most Outstanding President. Other members have received awards for leadership, public image, Interact, and Rotaract service.

From its beginnings in 2022 to its chartering in 2023 and continued growth thereafter, ReCASC has built a record of active service, district participation, leadership, and recognition, remaining committed to Service Above Self and its continuing goal of Creating Lasting Impact.

Club meetings are held twice monthly at 8:00 PM, both in person and online.
