ABOUT SINAGTALA

Sinagtala is a Filipino word formed from the root words sinag and tala, which mean “ray of light” and “star,” respectively. When brought together, these words create a beautiful image of light among the stars, making it a fitting name for the official e-bulletin of the Rotary E-Club of All Star CAMANAVA.

But Sinagtala means more than a name.

It is our connection point, a place where the stories of our club, our members, our partners, and the communities we serve come together. Like stars scattered across the night sky, each person and every act of service may seem small on its own. Together, they create something bigger and something brighter. Through Sinagtala, we share not only what we do, but also why we do it.

Here, you will find the stories behind our projects, the people who make them possible, the voices of those whose lives have been touched by service, and the moments that bring us together as an All Star family.

Service is not measured only by the projects we complete or the numbers we reach. Its true measure can be seen in the lives we touch and the light we leave behind. We believe that every community has the potential to shine. Through service, fellowship, and compassion, we can help bring that light forward.

This is Sinagtala. A collection of stories, experiences, and moments that remind us why we serve and why we create lasting impact together. *Where Stories Shine. Where Service Inspires.*

MESSAGE *from the* CLUB PRESIDENT

Leading with Purpose. Serving with Heart. Creating Lasting Impact.

From time to time, I pause to reflect on one profound question: How do you lead a young Rotary club towards becoming a force that transforms lives? It is a question that continues to inspire my purpose as I embrace the privilege and responsibility of serving as President for Rotary Year 2026–2027.

Accepting this role is more than assuming a title; it is accepting a challenge that I wholeheartedly welcome. Ours is a young club with a rich story, built by visionary leaders whose passion, resilience, and unwavering commitment have laid a strong foundation. Their journey, together with the challenges they have overcome, inspires me to lead with courage, humility, and hope.

One quiet afternoon, while painting, I found myself reflecting on the power of a single brushstroke. Alone, it may seem insignificant. Yet, stroke after stroke, it creates a masterpiece. It reminded me that one person, driven by compassion and purpose, can inspire countless others within a community.

It is with deep gratitude and humility that I accept the privilege of serving as your High-Impact President for this Rotary year. Together, we will cultivate a culture where every Rotarian is empowered to lead, every project is driven by purpose, and every service opportunity becomes a chance to create meaningful and lasting change.

As we move forward, let us be ready to Serve Above All in every circumstance. Let us build a club that not only responds to the needs of today but also inspires future generations to continue the work we begin. Our greatest legacy will not be measured by the number of projects we complete, but by the lives we touch, the leaders we inspire, and the hope we leave behind.

This year, let us serve with compassion, lead with integrity, and create a legacy that resonates far beyond our time. Together, we will transform challenges into opportunities, service into impact, and vision into reality.

Because when Rotarians unite with one heart and one purpose, we do not simply change communities; we inspire a better world and CREATE A LASTING IMPACT.

Yours in Rotary Service,
Dominic Benedict Santos-Viola Faustino
High Impact President
Rotary Year 2026-2027

PROJECT SPOTLIGHT

Padyak Para sa Pangarap

Turning wheels. Transforming futures.

July 1 marks the beginning of a new Rotary Year, and the Rotary E-Club of All Star CAMANAVA is making it even more meaningful with the launch of our newest service project, *Padyak Para sa Pangarap*.

Through Padyak Para sa Pangarap, ReCASC aims to ease the burden of transportation for students who continue to pursue their education despite financial challenges.

As the club's opening salvo project, we turned over our very first bicycle to a deserving student from the Philippine Malabon Cultural Institute, Inc., with Charter President Jacil Maris A. Luma-as leading the ceremonial turnover.

The bicycle was given to Grade 12 student Gabriel Sadullo, whose daily journey to school had become a challenge. CP Jaja learned about his situation after speaking with his adviser, who shared that Gabriel had been missing classes because he was also working. He had even considered transferring to a school closer to home because of the distance he had to walk.

When CP Jaja spoke with Gabriel, she learned that his father had passed away and that his mother was working to support the family, with her salary sometimes delayed. Gabriel had been walking to school since the previous school year.

Wanting to help, CP Jaja offered her own mountain bike, which she was no longer using. The club had the bicycle checked and repaired, and also provided Gabriel with a new helmet for his safety.

What began with a conversation between a club leader and a teacher became the first project of Padyak Para sa Pangarap. For Gabriel, the bicycle means a safer and easier way to get to school as he continues his final year of senior high school and works toward his dreams.

THE STORY

Behind

THE COVER

From a Mother's Embrace to Project Bituin

There is something fitting about having La Madre Tendra y Niño grace the cover of this month's Sinagtala.

In his painting, HIP Dominic Faustino portrays a mother carrying a biláo of ripe bananas on her head while gently holding her sleeping child. It is an image of tenderness, but also of responsibility. It showcases the quiet strength of a mother who carries not only her child, but the hopes and responsibilities that come with motherhood.

That same spirit resonates deeply with Rotary's observance of July as Maternal and Child Health Month. Around the world, Rotarians are reminded of the importance of giving mothers and children access to quality healthcare, education, and the support they need to thrive.

For our club, this year's observance became more than a month-long reminder. It became an opportunity to ask: How can we turn this message into something we can sustain within our own community?

And from that question came Project BITUIN.

BITUIN. Building Impact Through Unified Initiatives for Nurturing Families. It is our flagship community initiative that seeks to adopt one daycare center every Rotary year. Rather than a one-time outreach activity, the project is designed as a continuing partnership with a community, bringing together healthcare professionals, educators, local government units, Rotarians, and other partners to address the needs of children and their families.

Our first adopted community is the Longos Day Care Center in Barangay Longos, Malabon City, where we hope to serve approximately 130 daycare learners, together with their parents, guardians, and daycare personnel.

The first leg of the project will focus on oral health, maternal and child health, and disease prevention, with health education sessions, proper toothbrushing and handwashing demonstrations, and the distribution of dental, hygiene, and WASH kits. In the succeeding months, Project BITUIN will continue to explore initiatives aligned with Rotary's Areas of Focus, including Water, Sanitation and Hygiene; Disease Prevention and Treatment; and Basic Education and Literacy.

In many ways, Project BITUIN mirrors the message behind La Madre Tendra y Niño.

A mother carries so much for her child. Through service, perhaps we can help carry a little of that burden with her.

We may not be able to change everything at once, but we can make small acts of care count. A healthier habit, a learned skill, or a resource that continues to help a family long after we leave.

That is what Project BITUIN hopes to do: turn the tenderness and strength behind HIP Dom's painting into meaningful action.

Because when we care for mothers, we strengthen families. When we nurture children, we shape the future. And when we come together in service, we create lasting impact.

ReCASC Supports International Cultural Exchange for Kuya Center Children

In a meaningful celebration of friendship, culture, and service, the Rotary E-Club of All Star CAMANAVA (ReCASC) joined the Rotary Club of Mandaluyong and its sister club, the Rotary Club of Pudu Malaysia, in an international service project that promoted cultural appreciation and language learning on July 3 at Kuya Center in Cubao.

Kuya Center is a learning center that provides free education, values formation, and life skills programs for homeless and disadvantaged children, helping them build brighter futures through holistic development.

The activity opened with vibrant cultural performances sponsored by ReCASC, featuring a traditional Lion Dance and Wushu exhibition by selected students of the Philippine Malabon Cultural Institute, Inc. (PMCI). The performances introduced the children to the rich traditions of Chinese culture while creating an atmosphere of excitement and appreciation.

To further deepen the cultural experience, the children participated in a Basic Mandarin Language Appreciation session facilitated by Teacher Diether Pilapil from PMCI. Through interactive lessons and engaging activities, the participants learned simple Mandarin greetings and expressions, fostering curiosity and cross-cultural understanding. The session was also witnessed by fellow Rotarians who joined virtually via Zoom.

Following the cultural presentations, the delegation from the Rotary Club of Pudu, Malaysia, shared a taste of their heritage by preparing one of their signature Malaysian soups, Bak Kut Teh, for the children, Kuya Center staff, and guests. The delegation also distributed packed meals from a Chinese restaurant, further highlighting the spirit of cultural exchange through food and fellowship.

The program concluded with fellowship and photo opportunities, celebrating the friendships formed and the shared commitment of Rotarians from the Philippines and Malaysia to promote peace, understanding, and goodwill through service.

ReCASC extends its heartfelt gratitude to Vice Mayor Edward Nolasco for generously providing transportation for the PMCI performers, making their participation in this cultural exchange possible.

The international service project demonstrated how Rotary continues to build bridges across cultures, creating meaningful experiences that educate, inspire, and unite communities while nurturing global friendship among the next generation.

THE ALL STAR BEAT

District 3800 welcomes a new Rotary year through its Handover & Induction Ceremony

The Rotary E-Club of All Star CAMANAVA (ReCASC) joined fellow Rotarians from across the district at the Rotary District 3800 Handover and Induction Ceremonies held on July 4 at the EDSA Shangri-La Manila, marking the official transition of leadership and the beginning of another Rotary year.

LEADERSHIP IN FOCUS. From left: Good President Maria Cristina Chua, District 3800 Governor Celso C. Montalla and his spouse, Margaret "Meg" T. Montalla, and High Impact President Dominic Benedict Santos-Viola Faustino, marking the transition of leadership for the new Rotary Year.

Representing the club were Good President Maria Cristina Chua, who formally turned over the club's leadership to High Impact President Dominic Faustino, along with Past President Jemuel Pilapil and President Nominee Designate Rhoda Dasalla.

The ceremony brought together Rotary leaders and members in a celebration of continuity, service, and renewed commitment. For ReCASC, the leadership transition also ushers in a new chapter guided by the club's commitment to Creating Lasting Impact.

As one Rotary year concludes and another begins, the club looks ahead with renewed energy to strengthen its service initiatives, deepen community connections, and create meaningful change through collective action.

The Handover and Induction served as a timely reminder that while leadership may change, the spirit of Service Above Self remains constant. It is this spirit that connects Rotarians across generations, inspires them to serve with purpose, and encourages them to continue creating lasting impact in the communities they serve.

ReCASC Shines at the Symphony of Good

Though still a small club, the Rotary E-Club of All Star CAMANAVA (ReCASC) proved that great impact is not measured by numbers alone. The club celebrated an evening of recognition at the Symphony of Good: Rotary District 3800 Awards Night, held on July 19, 2026, at Solaire Resort North, where its dedication to service, leadership, and Rotary excellence earned multiple district recognitions for Rotary Year 2025-2026.

ReCASC was honored with Most Outstanding Club, along with a Rotary Public Image Citation Award and several recognitions highlighting the club's commitment to Rotary service and The Rotary Foundation. These included awards for Every Rotarian, Every Year (EREY) and Foundation Giving Club, All Polio Giving Club, Giving Tuesday, and 100% Membership Retention Rate.

The club also received a Service Project Award for the Rotary Peace Pole, recognizing its efforts to promote peace and understanding, as well as a Certificate of Diligence for E-Bulletin Submission.

The evening also celebrated the individual contributions of ReCASC leaders and members whose dedication helped strengthen the club throughout the Rotary year.

Good President Maria Cristina C. Chua was named Most Outstanding President and received a Leadership Award in recognition of her exemplary stewardship and commitment during her term.

THE ALL STAR BEAT

Charter President Jacil Maris A. Luma-as received a Meritorious Service Award for her contributions to the club and to Rotary service.

Meanwhile, Past President Gemuel A. Pilapil received a Recognition Award for Philippine Rotary Magazine (PRM) Service, acknowledging his contribution to sharing and promoting Rotary stories through the district publication.

The trophies, certificates, and awards that the club received represent the collective passion, dedication, and heart of every ReCASC member. Each recognition is a reflection of a club that continues to embrace Rotary's mission and strives to create meaningful and lasting impact despite its size.

As ReCASC celebrates this milestone, the club looks ahead with gratitude and renewed determination to serve with excellence, connect with purpose, and continue shining brightly as the stars in the universe.

CLUB LIFE

ReCASC Kicks Off New Rotary Year with Strategic Planning

The Rotary E-Club of All Star CAMANAVA (ReCASC) officially kicked off Rotary Year 2026–2027 with its First Club Meeting and Strategic Planning Session on July 11, 2026 which was graciously hosted by High Impact President Dominic Faustino at his residence.

Joining the meeting were President-Elect Michael Bola, accompanied by his spouse, Jessibel, Immediate Past President Cristina Chua, Charter President Jacil Maris Luma-as, Past President Jemuel Pilapil, and President-Nominee Designate Rhoda Dasalla. Together, the club's leadership came together to align goals, strengthen collaboration, and map out the journey for the year ahead.

ReCASC Shares the Rotary Experience Through New Members Orientation

The Rotary E-Club of All Star CAMANAVA (ReCASC) conducted a New Members Orientation on July 25, 2026, as part of the club's efforts to introduce Rotary and ReCASC to individuals who were invited to learn more about the organization and its work.

The orientation, which was held online, welcomed three guests who joined club members for an evening of discussion about Rotary and the opportunities available through membership. The session covered the history of Rotary International, its mission and values, and the organization's commitment to Service Above Self.

The guests were also introduced to the history of ReCASC, its activities, and service projects. PP Jemuel A. Pilapil, who is this year's Membership Director, discussed the requirements and process for joining the club, including membership fees and other relevant information for prospective members.

The orientation also provided an overview of the different ways members can participate in ReCASC, from community service projects and club initiatives to fellowship and other Rotary activities, especially in District 3800 events.

The New Members Orientation forms part of ReCASC's continuing efforts to connect with individuals who may wish to become part of its growing community and contribute to its mission of Creating Lasting Impact through service and fellowship.

MY ROTARY story

1 One word that best describes you: What is it?

Link or connector.

2 What should people know about you?

I always try to comprehend what life brings me so I can adjust and stay relevant.

3 What does a perfect weekend look like for you?

Either I stay in bed or spend hours in the spa to relax and wash away the stress from work or from the house.

4 Coffee or tea?

Both, as long as I put 5 teaspoons of sugar and fresh milk.

5 Morning person or night owl?

Can I say I'm a midday person? :)

6 What's one thing you can't start your day without?

Every time I wake up, I thank God for the day and pray my daily novena to St. Rita of Cascia and St. Joseph.

7 What's one food you could never get tired of?

One dish is not enough because, as a foodie, I have many favorites. But when I dig into my gastronomic memory, I think of picadillo. My mom has a very simple picadillo recipe: ground beef, potatoes cut into small cubes, and pepper, all sauteed with garlic and onions. She then adds water to make it soupy and seasons it with patis to taste. I guess that is my ultimate comfort food.

8 What's something people might be surprised to learn about you?

That I descended from Philippine heroes. My great grandmother is Gregoria de Jesus (The Lakambini of Katipunan). Her first husband is Andres Bonifacio. After his execution in Cavite, she remarried another Katipunan General, Julio Nakpil. Our line came from the youngest daughter of Julio and Gregoria. My great great grandfather is Maximo Viola, who helped Rizal publish the Noli Me Tangere financially. This novel became the inspiration of Andres to pursue the Revolution.

9 What hobby or interest could you talk about for hours?

Cooking.

10 What's one place you'd happily visit again and again?

Our resthouse in Baguio and jewelry stores.

11 What's currently on your playlist?

Nothing in particular, but my Spotify library contains the discography of my great-grandfather's compositions. Thanks to Dean Sandy Chua, who was able to find all of them except for three pieces that Lolo Julio did not rewrite after the war.

12 What's your favorite way to unwind after a long day?

Browsing through reels and short video clips.

ALING PRECY. One of HIP Dom's paintings, capturing the spirit of a close-knit family and the warmth of togetherness.

GET TO KNOW HIP DOMS

Hey there! Meet our club president for RY 2026–2027, High Impact President Dominic Benedict Santos-Viola Faustino. Born on July 10 under the sign of Cancer, Dom has been known by different names over the years, from his last name during his elementary and high school days to “Minic” among his volleyball teammates in UST Architecture and “Doms” in the culinary world. Now, get to know the man behind the title through this fun, slambook-style interview.

13 How did your Rotary journey begin?

When I was young, my mom helped one of my grandfather's cousins when he was president of the Rotary Club of San Francisco del Monte, Quezon City. Using her skills, she volunteered to teach stuffed-toy making and dressmaking through Rotary, and I accompanied her on some occasions. They also had a project that taught communities along the railway tracks how to make basahan. To this day, I still see people selling them there. One thing I loved about that Rotary club was its soup kitchen. A lady prepared large calderos of bulalo soup every day, and as a child, I would line up for some - after all the community beneficiaries had been served, of course.

14 What made you stay?

I stayed because of my memories of how Rotary created a meaningful impact in the community. With the opportunity offered to me by Jemuel, I felt it was time to take on the challenge.

15 What does being a Rotarian mean to you?

Being a Rotarian gives me an avenue to fulfill my philanthropic duties to communities in need. It brings together like-minded individuals who want to help and serve people struggling with daily financial, economic, physical, mental, and emotional challenges. We understand that these difficulties rarely occur in isolation; they often form a series of unfortunate circumstances. Rotarians have the compassion, ability, and resources to help ease these burdens and support people in building a better future.

16 What is one lesson Rotary has taught you?

Rotary has taught me to help those in need. I cannot do it alone, but as a team, we can amplify the support we offer and make a greater impact.

17 Complete the sentence: “This Rotary year, I want ReCASC to...”

...serve the community in ways that create a lasting impact.

18 How does it feel to be ReCASC's High Impact President?

In all honesty, I trust that my club will pull through and remain sustainable because its members are resourceful, capable, resilient, and reliable.

19 What's one thing you hope members will experience this Rotary year?

I hope we create and focus on one high-impact project that will truly last. We may undertake smaller projects, but we must have one defining initiative that leaves a mark on people's hearts. Memories may fade, but something that touches the heart can last beyond a lifetime.

20 What's one thing you're most excited to accomplish with ReCASC?

I am most excited about Project Buklod. I hope it will become instrumental in improving the lives of the children it serves. Although the project has already been established, I believe our collaboration can strengthen it and make it sustainable for a long time. The initiative had fallen through the cracks and urgently needed assistance, so I raised my hand to help the organization continue it. I also hope to tie up the loose ends and secure the continuity of these community learning programs, which are inclusive of all religions and sectors of society.

21 If RY 2026–2027 were a song, what would it be?

Roar by Katy Perry. Finding the club's strengths amid the challenges and hardships made us more resilient and powerful.

MY ROTARY story

22 If you could give your club one piece of advice for the year ahead, what would it be?

Continue building our legacy and make it resonate a thousand times over. Be inspired by the skills of our leaders and treat their experiences as valuable lessons. Adapt, grow, and enrich yourselves through these learnings. Inspire others to become better people, and you will find that the ripples of kindness return to you a millionfold.

23 Favorite quote or life mantra?

"We choose our next world through what we learn in this one. Learn nothing, and the next world is the same as this one, all the same limitations and lead weights to overcome."
- The Seagull by Jonathan Livingston

24 One thing on your bucket list?

To become wealthier each day so I can broaden the scope of my philanthropic work.

25 A person you'd love to have dinner with?

Myself as a 10-year-old child. I want to tell him that all the hardships we will endure will become lessons we can use to reach where we are today. I would tell him not to lose patience, because impatience can derail us from success.

26 If you weren't doing what you're doing now, what would you be doing?

I would probably be an architect. When I was an architecture student at UST, I struggled with the fact that almost all my professors had been students of my grandfather. I was young and did not know how to handle that pressure. I knew I was different, and I did not want to be the family member who brought shame to the clan. So, I changed direction and studied culinary arts. However, I remain interested in architectural heritage conservation to this day, so I spend time with like-minded professionals to stay informed about the field.

27 What's your guilty pleasure?

Belgian chocolates and incredibly delicious cheesecake. I am not a fan of cheesecakes that are not baked.

28 What's one word you hope people will use to describe your presidency?

Unforgettable...in the most positive way. This word can be a double-edged sword so I have to add the positivity in there.

29 Describe yourself in five words.

Leader, planner, artist, foodie, and heritage advocate.

30 Describe ReCASC in five words.

Diverse, young, resilient, optimistic, and future-focused.

31 Complete this: "For me, service is..."

...something you do wholeheartedly and without hesitation.

32 And finally, what does "Creating Lasting Impact" mean to you personally?

It means leaving an imprint that resonates beyond one lifetime and one individual; an impact that lives on through countless people and generations.

ROTARY CORNER

ROTARY PLEDGE & FOUR-WAY TEST

ROTARY PLEDGE

I do solemnly promise to help advance the object of Rotary, comply with the constitution and by-laws of Rotary International and the Rotary Club of _____, ever putting into practice Rotary's motto:

**"SERVICE
ABOVE SELF."**

FOUR-WAY TEST

Of the things we think, say or do:

- 1 Is it the **TRUTH**?
- 2 Is it **FAIR** to all concerned?
- 3 Will it build **GOODWILL** and **BETTER FRIENDSHIPS**?
- 4 Will it be **BENEFICIAL** to all concerned?

OBJECT OF THE ROTARY

The **Object of Rotary** is to encourage and foster the ideal of service as a basis of worthy enterprise and, in particular, to encourage and foster:

- 1 **First:** The development of acquaintance as an opportunity for service;
- 2 **Second:** High ethical standards in business and professions, the recognition of the worthiness of all useful occupations, and the dignifying of each Rotarian's occupation as an opportunity to serve society;
- 3 **Third:** The application of the ideal of service in each Rotarian's personal, business, and community life;
- 4 **Fourth:** The advancement of international understanding, goodwill, and peace through a world fellowship of business and professional persons united in the ideal of service.

CLUB PROFILE:

The All Star Story

CLUB No. 225124 (Chartered April 5, 2023)

History of the Rotary E-Club of All Star CAMANAVA

The Rotary E-Club of All Star CAMANAVA (ReCASC), sponsored by the Rotary Club of Malabon East, began with discussions on October 27, 2022 about establishing a new Rotary club dedicated to serving the community through Rotary International's motto, "Service Above Self."

The club held its first virtual meeting on November 4, 2022, beginning the orientation and preparation of prospective members. Five members from the Rotary E-Club of Navotas were approved for transfer to the new club. On November 11, 2022, Charter President Jacil Maris "Jaja" Luma-as participated in RYLA as a facilitator, marking one of the club's early engagements in Rotary activities.

The club's organizational requirements were completed in November 2022, and on December 13, 2022, PP Jed Concepcion of the Rotary Club of Malabon East was confirmed as its New Club Adviser by then District Governor Arturo "Bobby" Tanyag.

On April 5, 2023, the Rotary E-Club of All Star CAMANAVA was officially chartered with 20 charter members, led by Charter President Jacil Maris Luma-as.

Service and Community Engagement

Since its chartering, ReCASC has actively implemented and supported projects addressing community needs across several Rotary areas of focus. These include livelihood, environmental sustainability, education and literacy, disease prevention and treatment, maternal and child health, and disaster preparedness.

Among its continuing initiatives is the doormat-weaving livelihood program in Wawa, Navotas, which provides women in the community with skills and opportunities to generate additional family income.

The club has also maintained a three-year partnership with the Sagip Sierra Madre Environmental Society, Inc. (SSMEI) for environmental conservation and watershed rehabilitation in Norzagaray, Bulacan. Activities have included tree and bamboo planting, support for Bantay Gubat volunteers, community education, and the distribution of food and school supplies.

Other initiatives have provided free eye screenings and reading glasses, livelihood training, educational assistance, and community-based support programs.

The club has also established partnerships with corporate organizations, including Maziv Build & Design, to strengthen its community service efforts.

District Participation and Fellowship

Beyond its community projects, ReCASC actively participates in Rotary District 3800 activities, including conventions, service expos, leadership programs, talent events, sports activities, and fellowship gatherings. These engagements allow members to contribute to district-wide initiatives while celebrating the talents, sportsmanship, and camaraderie of Rotarians.

Milestones and Recognition

ReCASC's active service and leadership have earned significant recognition within the district. The club has been named a Most Outstanding Club and has received awards for Public Image, membership retention, Rotary Foundation engagement, goal achievement, and progress toward charter strength.

Its leaders have likewise received individual recognition. Hope Creating President Jemuel A. Pilapil was honored as an Outstanding President, while Good President Maria Cristina C. Chua was recognized as Most Outstanding President. Other members have received awards for leadership, public image, Interact, and Rotaract service.

From its beginnings in 2022 to its chartering in 2023 and continued growth thereafter, ReCASC has built a record of active service, district participation, leadership, and recognition, remaining committed to Service Above Self and its continuing goal of Creating Lasting Impact.

Club meetings are held twice monthly at 8:00 PM, both in person and online.
